OPEN POSITION

Senior Architect

Be part of the team that turns architectural vision into reality.

DEPARTMENT	EMPLOYMENT	LOCATION
Architecture	Full-time	Limassol, Cyprus

THE ROLE

The Role of an Architect

CCS Stylianides Group is seeking a Senior Architect to lead the design and delivery of high-specification projects across all stages, from initial concept and spatial planning to detailed construction drawings and on-site supervision.

Combining creative vision with strong technical command of planning and building regulations, the role serves as the key link between clients, consultants, and site teams—ensuring every project is executed with precision, regulatory compliance, and architectural integrity.

WHAT YOU WILL DO

Key Responsibilities

01	Studying, designing and planning spaces.
02	Detailed design and construction details.
03	Preparing drawing packages for permit applications.
04	Liaising with clients, coordinating all parties involved in each project, and supervising construction sites.

WHO WE ARE LOOKING FOR

Required Qualifications

01	Degree in Architecture.
02	Minimum 5 years' experience in an architectural office.
03	Registered member of ETEK (Cyprus Scientific and Technical Chamber).
04	Excellent knowledge of AutoCAD.
05	Excellent knowledge of 3D modelling and rendering software.
06	Excellent knowledge of planning and building regulations.
07	Excellent command of Greek and English, written and spoken.
08	Strong communication and organisational skills, team spirit and attention to detail.
09	Driving licence and availability for site visits.

THE PERSON

Personal Attributes

01	**Creative & Analytical Mindset.** Ability to balance high-end aesthetic vision with practical, buildable technical solutions.
02	**Meticulous Attention to Detail.** High standard of accuracy across spatial planning, construction detailing, and permit packages.
03	**Strong Leadership & Communication.** Confidence in liaising with clients, leading design coordination, and providing clear direction on-site.
04	**Proactive Problem-Solver.** Composed and decisive when addressing design challenges or site constraints under tight deadlines.
05	**Collaborative Team Spirit.** Reliability and accountability when working alongside engineers, consultants, and construction teams.
