OPEN POSITION

Site Foreman

Construction Site Supervisor

Bring your experience to Limassol as a Construction Site Supervisor, leading daily site operations, coordinating crews and suppliers, and keeping timelines, quality, and safety on track.

DEPARTMENT	EMPLOYMENT	LOCATION
Construction	Full-time	Limassol, Cyprus

THE ROLE

The Role of a Site Foreman

CCS Stylianides Group is looking for a full-time Site Foreman to join our growing construction team in Limassol. In this hands-on leadership role, you will oversee daily on-site operations, turning project plans into reality on the ground.

You will lead and coordinate trade crews, subcontractors, and suppliers to keep construction progressing smoothly on schedule while upholding strict quality specifications, site organization, and workplace safety standards. Serving as the vital link between project management and the workforce, you will ensure every development is delivered safely, efficiently, and to the highest standard.

WHAT YOU WILL DO

Key Responsibilities

01 **On-Site Supervision & Execution.** Translating project plans into daily action by directly supervising and coordinating ongoing construction operations across one or more sites in Limassol.

02 **Subcontractor & Supplier Coordination.** Acting as the main point of contact on the ground to schedule, direct, and manage work crews, subcontractors, and material suppliers so projects progress without bottlenecks.

03 **Schedule & Quality Control.** Monitoring daily output to ensure construction adheres to project timelines and meets the company's quality specifications.

04 **Health, Safety & Site Organization.** Enforcing workplace safety protocols and maintaining site cleanliness and order in accordance with Cypriot construction regulations.

WHO WE ARE LOOKING FOR

Required Qualifications

01 **Practical Construction Expertise.** Essential prior experience on construction sites with a solid grasp of building processes, methods, and materials.

02 **Crew Leadership & Project Management.** Proven ability to coordinate and manage multidisciplinary work crews, resolve daily on-site issues, and keep workflows efficient.

03 **Safety & Compliance Knowledge.** Thorough understanding of workplace safety procedures and site management standards.

04 **Bilingual Communication.** Fluency in both Greek and English to bridge communication between management, engineers, suppliers, and diverse work crews.

05 **Mobility.** Valid driving license to commute reliably between sites, suppliers, and offices.

THE PERSON

Personal Attributes

01 Organizational and communication skills.

02 Responsibility, flexibility, and decision-making ability under pressure.

03 Team spirit and leadership skills.

BENEFITS

What We Offer

01 Competitive remuneration package, including an annual cash bonus.

02 Career advancement opportunities within the company.
